

Date 10/5/07

Patient: Miss Stacy Barretto
Goa.

Stacy Barretto was suffering from Blood-Cancer (A.H. Group.) and was being treated at Tata Memorial Research Centre Bombay in the year 1999. We have a relative in Bombay Mrs Bridgit Moronha who referred us to Dr Mehra. So side by side we started taking homeopathic treatment from Dr Mehra. During these seven years we changed Stacys eating habits. We started giving her mostly fruit juice diet such as carrot juice, grape juice, orange juice and also gave her lot of vegetable as per Dr Mehra's advice. As per doctor's advice we also started giving her wheat grass juice.

She was also suffering from hepatitis B problem during her treatment at Tata hospital for which also Dr Mehra is treating her for which we have got good results.

As we take the medicines we also have to pray to Almighty God. So it is God who heals the sickness through the doctor's medicine.

I would like to thank Dr Sunil Mehra for all his efforts. He being a good doctor is also a very strict disciplinarian. Dr Sunil Mehra has send us Medicines, even to Goa by courier service for which we thank him.

It is nearly eight years that Stacy is in good health by the grace of God Almighty.

Thanking you

Jaime Barretto

God

Father of Stacy Barretto

My request to cancer patients is to avail of the treatment i.e. homeopathic treatment side by side as this treatment increases your blood counts which is required during Chemo therapy.

Another thing is about Radiation which was to be given at Sate hospital for my daughter and I did not give the Radiation therapy to my daughter on Dr. Sunil Mehra's request for which I am grate full to doctor for his advice.

Barretto
