Kavita Menghrajani
Ranam Menghrajani

Mrs. Kavita Menghrajani was having pigmentation on my face especially on my forehead since 3 1/2 yrs. I happen to come to this doctor since 2 1/2 yrs. My treatment lasted on me for approximately 1 1/4 yr.

The amazing thing that I really liked in this treatment was that everything is so natural, and being a yoga student (a devotee) I found it very flowing and easy to follow.

The only thing you had to follow was the instructions which are very simple and basic. I assure you if you abide by the doctor's instruction, you will surely lead to a good health.

The doctor is true to his profession, he knows his job well and above all he knows and understands his patients well and treats them accordingly. He has knowledge of all the medicinal fields and guides you to the right direction.

When you come here, you are in the right hands under the right doctor with the right treatment. Thanking you for your kind co-operation and making me feel so honoured.

Next page.

85 FF P402 Mrs. Poonam Murphrajani had come here since three years with high diabetes and an ~~un~~ unhealthy life style.

Poonam has now learned to eat the right food, live a healthy life, think for herself as to what to eat because as we all know food taste is the root cause of all disease.

With all the doctor's instructions

Poonam now knows how to begin the day well and maintain herself during the day before retiring to bed.

Poonam previously always complained of waist pain, eyes, ~~and~~ legs, ~~and~~ etc, but now under Doctor Mehra's guidance she is ~~is~~ much better.

Doctor's mother Mrs. Mehra too plays a very important role by being a role model for most of us. She answers all your calls and queries very patiently at any time of the day.

Doctor too is very adjustable and very often just gives instructions on the phone. The compounders are very diligent and understanding.

On the whole personally I feel coming to Dr. Mehra is ~~is~~ living (you like to you fullest and enjoying it).

Thanking - you for making me feel so efficient to write a feedback.
