Tel No - [REDACTED]

- Dear all,
I had come to Dr. Sunil Mehra as a last resort to treatment for my perennial Ear discharge problem.

Before this treatment, I had gone to many ENT specialists, who always gave me Doses of antibiotics, which only solved my problems temporarily. I was really fed up to responses of these famous ENT Specialists.

One fine day one of my friend Mr. Mohit ~~Patel~~ told me about Dr. Sunil Mehra, who normally treats the disease from root. I frankly did not have full faith in Homeopathy. As a last resort I thought it is better to try Homeopathy & Dr. Sunil Mehra to avoid Operation as proposed by ENT Doctors.

My first experience with Dr Sunil Mehra was unique. I felt he is too tough but over a period of my ^{regular} visits, I understood that everything suggested by him was for the well being of the patients.

Its been now almost 1yr that my treatment has taken, but my problem is now solved. Now last 45 days there is no discharge from my ear.

I also got my daughter Ms Bhoomi treated from Dr. Sunil Mehra. She is also during absolutely fine. She was suffering

from Bronchitis & cold problems.
Apart from treatments of our diseases we have been able to now understand the healthy way of life, what to eat & what to avoid.

I would recommend others who to take treatment from him. This staff is very cooperative & professional. Response of doctor on SMS is also very encouraging.

Now I remember my friends words that Dr. Sunil Mebra treats the problem from root.

M. K.
