R. K. Nayar  
Have cold and was addicted to  
obriev for six months although the  
disease was 3 years old.

Now I feel fully recovered as I don't  
use obriev any more for last  
year to six months.

During the treatment I listened to the  
doctor carefully and follow the instructions  
in total. The instruction regarding the  
medicine and other. At last what to eat and  
what not to eat. Treatment method is  
excellent as it gives complete knowledge  
of disease. and therefore help is indeed  
very convenient as we can get medicine  
any where in India by courier.

SUGGESTION Please open ICICI Bank  
account for remitting money for  
Treatment from outside Mumbai for  
patient convenience.

K. Nayar
