

Recurrent Pharyngitis with fever. DATE 17/6/08

Reshmita Jose

My daughter, Reshmita was suffering from recurring cold, cough and fever since last 5 years. I started the treatment under Dr. Sunil Mehra 4½ months back. Tremendous change has been observed. Now she is almost free from cold, cough and fever.

The way of treatment was so exceptional. It was so easy to contact the doctor at any time. The office staff also provided very good service.

The instructions given by the doctor made her systematic in her food habits. It seems that the same has helped a lot in curing the disease.

I would like to thank Dr. Sunil Mehra for his sincere attempt to cure the disease. The change of life style/ food habits she has made would help her in her future.

With lot of thanks.

R-Jose
