

Cough

Sushma Mishra  
6/10/06

Hi,

My name is Sushma Mishra and is a working lady. I was suffering from cough since last three years. I visited many doctors but was not cured. Then my husband took me to Dr. Neha. He took my case and relieve me within two days. I was cured.

People say that

Homeopathic is slow but I think people should go for Homeopathic.

It is the fastest track in a right direction.

Thanks a lot to Mr. Neha who had been very nice to me. He is a person who takes cases personally and treats them like a family. The best thing is that he is a man with full of ethics and principles which has been boon to this medicine world.
