

Migraine.

Chronic Asthmatic Bronchitis

Gautam Menon

Beeta Menon.

I, Beeta Menon had been going through Migraine since last 5 years. Then later for 2 years I was having English medicine but it had no effect. In December 2014 I started consulting Dr. Sunil Mehra. Now in the last 5 months I have had 65% recovery. The Doctor told me to do some exercise which I was doing and it brought great relief to me. I am very impressed with the treatment method. The clinic also has a very good telephonic service, each time I called I always got a response. Homoeopathy is a very good treatment method for curing of any disease or illness. The best thing is that it has no side-effect and also assures full recovery. The doctor is very good. He is always approachable. He is a very Reliable and Efficient doctor. There is a very good compounder service. It is very Important to follow with the do's and don'ts (Parhez) and also the diet plan told by the Doctor as it helps a lot. I also got my son consulted from Dr. Sunil Mehra for his Asthmatic Bronchitis problem. He had been going through this problem since he was 1 year old. At the age of 5 he showed some breathing problems that is when we started consulting the doctor. It has

been almost 10 months since he is under medication and has shown ~~an~~ almost 85 to 90% improvement. He was asked to follow a ~~part~~ particular diet plan which helped him a lot.
