

Ankush Agarwal (Apthous (Mouth Ulcer))

My name is Ankush Agarwal. Actually I belong to U.P. (Lucknow) and I came Mumbai for a job hunt. And during that only I got mouth ulcer and I was not able to speak even a single word. I was very tensed because my interview was scheduled next day and my mouth was full of ulcer that I couldn't speak then one of my friend told me about the doctor Sunil Mehra and I denied because it was homeopathic then again he said you just go and I promise you will get well. Just because of him I visited doctor's place but it was really a magic which doctor has done when I met doctor I said for any how I want this to be clean by today because tomorrow I have to go for interview then he was taking that very lightly because he was confident that he will do that easily but I was very afraid because at that time I didn't have faith but you won't believe it was really a great experience from first dose only I started getting the relief and

by evening I was 60% better than before. Really the doctor did magic and just because of him I was able to give interview.

Well It was all about me and my disease now I would like to talk about doctor and his behaviour with patient. See patient like me those who are long away from our guardian and family needs some care and family touch outside that is what he gives he doesn't only talks about disease from patient he talks about family house what do we eat, what do we do. what should we do, what to eat generally he should not concerned about all these like other doctors do but he is really like family member with each one. May god give him all that he deserves. All the best sir thanks for everything.
