Recovery has been 100%.

Dr Mehra was recommended by a friend. I had never taken homeopathic medicine and was unsure of the same. Dr Mehra on examination said I had 4 degree growth and had to be operated. I wanted to try the medicine first and avoid the surgery. Dr Mehra put me on a diet and started the treatment.

Due to the disease was already of months old, the bleeding was heavy and haemoglobin count had come down. So the diet as suggested by the Doc and medicine commenced. Over the month the bleeding lessened and the Hb count went up. Dr Mehra was also able to give up a lot of unhealthy foods and drinks.

Continued this treatment with food, faith and discipline and today am totally cured. My haemoglobin count has come back to normal and the bleeding has stopped. All due to a good diet and very effective medicine given by Dr Mehra. The pills have really worked. Thanking You.
