CORNS

Due to professional hazards, the problem of multiple corns in my legs had worsened and I ~~was~~ tried other medication for years even after trying all sort of medication for 4 years. Finally a colleague of mine recommended Dr. Sunil. A few visits and long interaction with Dr. Sunil made me realize that I need to bring about a ~~to~~ change in my approach and thinking. As guided I ~~thought~~ changed my diet, my sleeping pattern and did few exercises to help in getting relief faster.

One year down the lane, there was 70% improvement only and I was losing hope. But thanks to Dr. Sunil who from time to time made me realize that ~~treatment~~ my case (treatment procedure) is similar to repairing a vehicle keeping its engine on. I look it on a positive note and patiently followed his advice. I appreciate his commitment towards his profession. He will minutely discuss my problems and give solutions. He will enforce it in a very polite manner.

Today I strongly believe that Homeopathy has helped me a lot. It took me 2 and half years to bid good bye to my Corns. A BIG THANK YOU to Dr. SUNIL MEHRA for his patient approach, honesty and the concern he has shown during this period and increasing my faith in the path of homeo treatment.

Because of his strict and disciplined approach to life, one feels it practical to follow. The list of Do's & Don't is so useful. Honestly, I follow 50% of what is mentioned and I know the difference that has ~~come~~ come in my life.

I also need to mention that he treated me for vertigo, throat problem and acidity. Timely services and availability on whatsapp has ~~made me~~ been one important aspect of this course of treatment with Dr. Sunil. He adopts a holistic approach and don't believe in just giving medicines to the patient. He explains the causes, effects and remedies to be adopted, ~~and~~ A very educative & convincing way of treating the patient.

I was convinced that Dr. Sunil Mehra is not interested in treating the ailment only but adding value to the life of the patient by making them realize that Good health is the only secret for good long life.

No doubt, it took a long time for me to get cured but my case was also unique. I approached Dr. Mehra after 14 years of self medication & other treatments with around 6 to 8 corns in my leg & today I have none.

Thank you Dr. & I pray to God to give you a long, healthy and peaceful life to serve humanity.
