

Name . Anisban De

Tel no [REDACTED]

I have been suffering from a very ~~with~~ strange disease which got eruptions all over my right arms. I had noticed it sometime in January 2010, I simply ignored it then thinking its nothing serious and it would just disappear after a while, but it started to worsen, so one day in the month of may I just thought I would show it to ~~the~~ doctor Dr. Sunil Mehra as my father told me to go see him. I however managed to make time. I ~~sto~~ showed it to him on May 22nd, hoping ~~it would~~ he would have a solution for me, he did, but he told me it would take a minimum of a month an half to completely get rid of them, But to my surprise more than 90% of my eruptions have disappeared in less than 15 days ~~but~~ by just having 4 extra small pills 4 times a day. I was always under a ~~fa~~ mis conception that homeopathy treatment is very very SLOW, but I was ~~pe~~ wrong, very wrong, ~~tha~~ ~~nta~~ very thanks to Dr. SUNIL MEHRA.
