

Atopic Dermatitis

Name SHAUN PINTO

Tel [REDACTED]

Mother's Name MRS. WILMA PINTO

Duration of illness - 10 months

Duration of treatment - 7 months

Percentage of recovery - 97%.

Hi! I am Wilma Pinto. My son, Shaun Pinto who was 2 1/2 yrs old when we met Dr. Sunil Mehra. Shaun was suffering from what we thought at that time, some type of rash. But when we sought the opinion of almost 5 diff doctors, we came to know he is suffering from atopic dermatitis which is one type of eczema. Naturally like all mothers, I was very worried and surfed the net for every information on atopic dermatitis. I was very upset to read on the net, that there is no cure for atopic dermatitis. It will only disappear if at all when the child grows up.

During this time, I met Dr. Sunil Mehra, by chance and he introduced himself to my husband as a homeopathy doctor. I was tired of giving my son, a lot of allopathic treatment and applying ointments on his skin. I found this was giving him only temporary relief. Once I stopped applying those ointments, his rash would appear with greater intensity. So my husband and I decided to meet Dr. Sunil Mehra for my sons treatment.

Uptil now, whichever Dr. we had been to, they treated my sons disease without realizing its cause. For first time we were made to realize - the root cause of my son's atopic dermatitis.

I had once read during my school days
we are what we eat. Over the years, I
must admit, having overlooked at that
golden rule. We are grateful to Dr. Sunil
Mehra for having made us realize this
most important rule of good health.

We started with small small changes
in my son's diet. We stopped giving him
non-veg, chocolates, juices like real and other brands
and replaced it with a lot of fruits and veggies.
Dr. Mehra also replaced our milk from the
packets that we get in the market to fresh
cow's milk from the Tabela. Results were instant
from the time we replaced his diet, in less than
two months time, my son showed a lot of
improvement. Today we feel happy to see his
glowing skin and radiance on his face.

I would only like to share that
patience and a belief that we will definitely
be cured by Dr. Sunil Mehra's medicine, knowledge
and expertise has helped us bring our son back
to good health. His availability at all times,
prompt reply to our needs and a motherly care
towards all his patients is what we in my
family really appreciate. Had it not been for
his adamant decisions, loving advices we
would never be a happy and healthy family.
