Allergic Reaction on face

Varsha Ubale

Mob. [REDACTED]

Hi :

My name is Varsha Ubale. I would like to share my experience with Dr. Sunil Mehra. After eight day I would have to attend my Brother's marriage and suddenly I got an allergic reaction on my face. Then I have gone to a normal skin specialist. after her treatment my problem has increased more. I got more redness & irritation on my face. And that day was my ~~earlier skin~~ ~~skin~~ Sunday my earlier skin specialist was closed on that day. even I have tried some other doctor's clinics. But all were closed on Sunday. Then I called Just Dial & asked some skin specialist open on Sunday's. I got so many tel phone no. from just dial.

Then I got call from Dr. Sunil Mehra's clinic. And I visited to their clinic. And what I have seen the doctor is Homoeopathic doctor I was worried & was thinking should I go to the doctor or should show my problem or not I was thinking that Homoeopathy is good but it is very slow in result. But I was not having any option to show my skin problem to doctor. A.

And finally I went to the Doctor and explain him about my allergic reaction on my face. I was still not sure whether the doctor will solve my problem or not But Dr. Sunil Mehra was confident for his treatment.

Next page

He told me to put potato juice on my face. two times in a day & given his medicine. And Even on 2nd day I found an improvement on face. Then I got some confidence on his treatment. After that I follow all his instruction & ~~timely~~ taken timely medicine & within four working days my face was looking as good as my normal skin. ~~within~~

Within one week my skin problem has been solved and I would be able to attend my Brother's Marriage. finally I attended the marriage function happy with glowing skin. And I really thank to Dr. Sunil Mehra for every thing

I suggest to new visitors to believe to Dr. Sunil Mehra & follow his instruction & you will get the results very shortly.
