DATE 22/5/09

Hi, I am Anand Kulkarni, I was suffering from ringworm and piles disease. I had ringworms from past one year or so and piles from last 8 months.

I had undergone many treatment for ringworms but couldnot find the solutions.

As I stay at Andheri, I checked from Justdail regarding the skin specialist. I got a call from Dr. Sunil Mehra who was helpful in and kind in guiding me to his medicine and clinic.

As the illness was acute I decided to come the same day and I took a medicine from the doctor, so it tells that never delay your medicines.

I started to feel the change in a week's time, the scratching, itching came down drastically. I had to maintain a strict diet of not eating sweet and bakery food.

Doctor know the solution of any disease but its the patient who has to follow the instructions as told by the doctor.

Regular checkup and continuous feed back from the doctor is ~~the~~ was crucial for curing of my disease.

Now Its almost 80% cured and I am still following the Treatment.

I suggest the patients to be regular and have faith in the treatment as the results are slow but the effects remains last.

Slow and Steady Wins the Race
Thanks to Doctor & his Team
