

Abhishek Dosi - ~~XXXXXX~~ (Mobile No. ~~XXXXXX~~)
 Spondylolysis (Similar to Slip Disc).
 Suffering (was). Rather today I can ~~not~~ write was
 suffering from it as I have recovered almost 100%
 out of it) since Jan 2008. ~~He~~ He treats like you
 Started treatment of Dr. (Complete guide, ~~Dr.~~ brother)
 Simil Mehra from 8th August, 2011. He advised
 complete bed rest for 20 to 30 days when I visited
 his clinic on 16th September July, 2011. I could not
 come on bed rest immediately due to my office
 commitments, for which Doctor ~~said~~ ~~convinced~~
~~me~~ explained in detail my disease, importance of
 spine etc. [and upon which I requested doctor to
 allow me for 2 weeks after that (taking leave from
 office etc.) I can ~~can~~ start his treatment.

During the treatment I ~~can~~ completely followed his
 instructions (may be blindly) and discussed with him
 for any doubts, ~~proven~~ ~~etc~~ logic behind following
 the process, activity suggested by him. He answered
 all the queries of mine convincingly and with logic.
Learnings - I learnt to follow develop a schedule
 required to be followed for good health, quick
 recovery. & Most Important thing maintain the
 machine called BODY. ~~was~~ ~~use~~ ~~and~~ ~~use~~
 Doctors treatment Methods & techniques are unique. You
 can't find it anywhere else. He imagine that
 he himself is the patient & how to recover from
 disease. He gives personal visit, gets into the way
 to do activities like (getting up, sitting down, lying on
 bed etc. etc.) & rectifies it wherever required. He
 is practical also in rectifying our activities.
 He ask for regular follow through SMS or call.

See below

Next page

He followed up with me & failed to report him a couple of times. This gave me the feeling that he is there to look after me. Help me achieve the recovery.
I followed him blindly as I found him like elder brother to whom you can trust fully. He is knowledgeable [He has a sound knowledge of allopathy, physiotherapy, acupuncture & above Homiopathy].

Raju & Aakash both the compounders are extremely co-operative & supportive. In the absence of doctor [which is exceptional] they take pass the message to doctor & get the answer for you.

Message to the Prospective Patient

You can trust Doctor Mula completely. You might find his techniques of treatment as unique or different, may be you might find it strange. But my advice to you is just follow it. He has treated many like you. If you have any doubt just ask him & convince yourself.

I am sure you will get recovered if you strictly follow his instructions which is the key to your recovery.
