

Warts

Soham Apte

My name is Soham Apte and I was suffering from warts since I was in IXth std. I ~~was~~ undergone a surge quattry surgery in XIth but still there were some remains of the warts. So during my XIIth std I came to Dr. Sunil Mehra for the first time. It was then when I came to know that the real treatment for warts was homoeopathy. So Dr. Sunil Mehra gave me some medicines for my warts to cure and he told me that somethings like coffee, raw onion, garlic should be avoided during this period. I was a bit disappointed at that time, because coffee was my favourite drink. But after some months of treatment, today I am happy with the results. My wart has been 100% cured and all due to Dr. Sunil Mehra and his medicine.

Dr. Sunil Mehra is more involved in his patients and he takes interest in them. His explanation about a particular disease and its treatment is very good and his knowledge about homoeopathy is vast and practical and he explains it to the patients in a practical manner. ~~But~~ Sometimes I used to forget my appointment, but Dr. Sunil Mehra used to remind me of the appointments, about of them.

Now after three months of

See below Next page

treatment I am satisfied with the result and I recommend it. My message to other patients is that Dr. Sunil Mehra's treatment is very effective and gives 100% result, though some restrictions are to be followed during treatment.
